

Providing Outstanding Service Requires Outstanding Partners

CISCO SYSTEMS®

THE WORLDWIDE LEADER IN NETWORKING FOR THE INTERNET.

All traffic on the Hanson Information Systems network is routed over Cisco® routers. Cisco® technology is driven by over fifteen years of routing experience. Cisco® networking products have long been known for quality, functionality, and reliability.

Sun Microsystems®

FOUNDED ON A VISION THAT TECHNOLOGY SHOULD WORK FOR YOU, NOT THE OTHER WAY AROUND.

Hanson Information Systems uses Sun Microsystems® servers. These servers are characterized by their dependability and versatility.

AKAMAI®

COMMITTED TO *DEVELOPING A BETTER INTERNET.*™

Because of our unprecedented commitment to excellence and to be on the cutting edge of Internet and networking technology, Akamai®, the Internet's premier content provider, chose to partner with us. Akamai® stores and provides content and information for leading sites on the Web like cnn.com and yahoo.com. Akamai® partners strategically with Internet companies who are able to offer the fastest and most reliable Internet connectivity, so that they can be ensured that these heavily trafficked sites are available to the rest of the world quickly and consistently.

Dell Computer Corporation®

Hanson Information Systems utilizes Dell's powerful and sleek PowerEdge™ rack-optimized servers.
