Equipment Supplies

Hanson Information Systems can supply all of your equipment needs at competitive prices.

Let us use our purchasing power to provide you with the best business equipment at the best prices.

- Servers (towers and rack mounts)
- Firewalls
- Workstations/Computers/Laptops
- Switches, Hubs and Routers
- Storage and Backup Solutions
- Printers and Print Servers
- Scanners and Copiers
- Projectors

Everything you could need to equip your office and network to the highest standards.

Network Services

Hanson Information Systems can design, install and maintain your computer network.

Our staff listen and learn about your business to ensure we understand your needs.

We translate this knowledge into flexible solutions that can adapt to and evolve with your organization over the long term.

Once installed you can maintain your own systems or use our highly experienced technicians to help your organization to operate at peak efficiency.

Hosting Services

Hanson Information Systems' state of the art, climate controlled facility can host your website or your critical servers and applications ensuring they remain functioning even in the event of power outages.

Websites

A full range of webhosting services and the technical back up to ensure your presence on the World Wide Web is available 24/7

Server Colocation

Protect all of your critical data by locating your server at our facility. We provide connectivity allowing you to operate and maintain your server as if it were in your own office.

Options include:

- Locating your own server at our facility
- Purchase a rack mounted server at our facility
- Rent a server at our facility
- Rent space on our "super server"
